Guyot

Best temperature 10-12° C

It is a very versatile wine,
excellent as an aperitif, it also
goes well with meat and fish
appetizers, and also with
vegetable and soup dishes.

Vinification: the grapes are harvested manually and selectively. Temperature-controlled fermentation and aging take place in stainless steel tanks and a small part in barriques. Following further refinement in the bottle for a few months.

Characteristics: straw yellow in color, with greenish reflections. The nose is fresh and fruity, with light tropical notes and vanilla. The taste is rich, mineral, full and persistent.
